

PRESIDENTIAL VILLA

Created by interior designer, Sharon Alber Fannin, the Presidential Villa is a luxe haven of Old World colors – gold, deep olive green, black and cream. Medium wood tones combined with a variety of fabric textures and grand scale furniture provide 1,700 square feet of Mediterranean richness, comfort and luxury. The Presidential Villa and its surrounds were home to President George W. Bush and the First Family during two visits to Phoenix in 2004.
