

PRESIDENTIAL VILLA

Created by interior designer, Sharon Alber Fannin, the Presidential Villa is a haven of Old World colors – gold, deep olive green, black and cream. Medium wood tones are combined with a variety of fabric textures and grand-in-scale furniture, providing 1,700 square feet of comfort and luxury at every turn. The Presidential Villa and its surrounds were home to President George W. Bush and the First Family during two visits to Phoenix in 2004.
